

Primary Camps (ages 2 ½ —5 years)

Week 1 Botany & Gardening with Ms. Gonzalez

Let's "dig" right into summer by starting off our camp planting vegetables, flowers and a tree! The study of plants is important because they are a fundamental part of life on earth. Children will not only learn the importance with books, songs, and art but with hands on experiences such as gardening and taking walks through the nursery.

Week 2 Music and Movement with Mr. DeVine

Come enjoy a week of sound exploration and movement! From musical activities to coordination and timing games that result in giggles and 'I did it!', the children enjoy learning all they can do. Add a parachute, some shakers and rhythm sticks and you have children focused on keeping the beat. Music and movement are a wonderful stimulus for memory and language development.

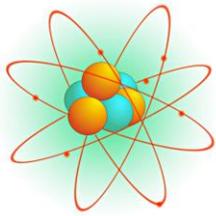

Week 3 Spanish with Ms. Gonzalez

Come watch your child perform in their first school play! Spanish songs are one of the best ways to introduce children to and maintain their connection to the language. We will engage in theatrical plays, song performances, games and much more!

Week 4 Ocean Life with Ms. Gonzalez

Students will have a blast exploring the oceans and ocean life. After locating the Earth's major oceans on the world map, we will "dive underwater" to discover the plants and animals that live in the sea. Students will listen to stories and poems with ocean settings and learn about the forms of sea life. They will also have an opportunity to create arts and crafts projects each day!

Week 5 Science with Mrs. Bravo

Welcome to an exciting and fun science week! Children will have the opportunity to explore hands-on simple experiments. We will learn about cause and effect with air, magnets, sound, water, and gravity.

Week 6 Fitness & Yoga Fun with Ms. Gonzalez

Children derive enormous benefits from staying active and practicing yoga. Physically it enhances their flexibility, strength, coordination and body awareness. In addition, their concentration and sense of calmness and relaxation improves. We will also be introducing sports throughout this active week.

Week 7 Astronomy with Ms. Gonzalez

Your child's imagination, connection and curiosity will be challenged as we start the week off by learning about our solar system. We will be creating papier-mâché planets, enjoy a painting lesson of the sun on canvas, and create solar system jars. Come join us as we explore this magnificent universe!

Week 8 Montessori for the Curious Mind with Ms. Gonzalez

While all of our camps incorporate the Montessori methodology, this camp's specific purpose is to serve the curious mind of the child. This camp is an excellent choice for those who may be experiencing the Montessori learning style for the first time. For current students, it is an opportunity to explore the specially designed hands-on materials as well as learn more about art, literature, and music.

New students for the 2018-2019 academic year are encouraged to attend this camp as an introduction of the Montessori classroom during the school year.

Elementary Camps (ages 6—11 years)

Week 1 Muffin Tin Cooking with Mrs. Resquir

Muffin tins are not just for making muffins and cupcakes anymore! Join us for a food-filled week of yummy breakfast, lunch, and dinner recipes that can be made in muffin tins.

Week 2 Paper Craft Fun with Ms. Erickson

Come and fold, glue, cut, paint, emboss, tear, stamp, punch, roll, crimp, marble and fly. Yes, fly! After you learn all of these great techniques we will make cards, boxes, decorations, bookmarks and paper airplanes! You can bring your own photos to make scrapbook pages if you want. You will never look at a plain piece of paper the same after this workshop.

Week 3 Sewing with Mrs. Bravo

Imagine your child coming home with a nice piece of fabric with beautiful stitching or embroidery. In this camp children will have the opportunity to learn how to transfer their own patterns to fabric, learn different stitches, sew buttons, and learn to embroider.

Week 4 Gardening with Mrs. Bravo

Come and join us for a gardening project. We will learn how to create a vegetable garden and a flower bed and enjoy a visit or two to Bokay Nursery. Children will have some fun while planting seeds, bulbs and live plants as well. They will also be encouraged to take care of a garden and foster respect for our environment. Campers will bring home their own plant in a pot.

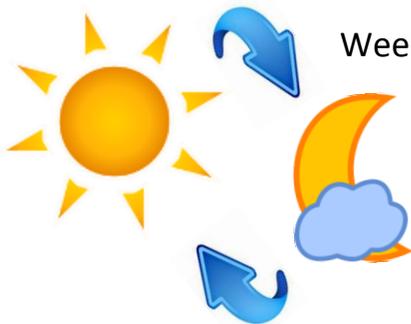

Week 5 Tied Up In Knots with Ms. Erickson

Let's get tied up in knots! We will play with all types of fibers and techniques in this class. Japanese and Peruvian braiding, Chinese knots, macramé, spool knitting, sailor knots, crocheting and finger knitting, plus "pearl" knotting and basket weaving. Make keychains, bracelets, necklaces, bookmarks, belts, and coasters for your friends and family. Get started on your holiday gifts early!

Week 6 Summer Fun ReMix with Ms. Pearson

Cooking or crafts? Art projects or outdoor fun? How about a little of everything? This camp offers elementary students the chance to change it up each day. Ms. Pearson enjoys hearing about interests our campers have and incorporating it with the day's activities. They are sure to learn about something new they may enjoy while sharing their own ideas throughout the week.

Week 7 Breakfast All Day with Mrs. Resquir

Do you like to eat breakfast for dinner? Well now you can enjoy breakfast anytime of the day. Let's make hash brown waffles and have breakfast banana splits! Learn some tasty breakfast recipes and then go home and make them for dinner!

Week 8 Lunchbox Ideas with Mrs. Resquir

Are you tired of the same lunch every day? It's time to jazz up your lunchbox routine! How does Pizza Pinwheels and Build Your Own Tacos sound? Come and check out some fun lunch ideas that you can add to your lunchbox menu.
